Terms and Conditions

Definitions

- "Company" refers to Ant 4ce Constructions.
- "Customer" refers to 5kW On Grid
- "Company" refers to Ant 4ce Constructions purchasing solar installation services."System" refers to the solar panels and related equipment installed by the Company

Scope of Work

The Company agrees to design, supply, install, and commission a solar power system at the Customer's premises. The exact specifications of the system will be as per the proposal provided and mutually agreed upon by both parties.

Site Assessment

- Installation is subject to a site survey conducted by the Company to assess technical feasibility.
- Additional costs arising from unforeseen site conditions will be borne by the Customer.

Permits and Approvals

- The Company will assist in obtaining necessary permits and approvals from regulatory authorities.
- The Customer must provide site access and cooperate to secure approvals.

Payment Terms

The total cost of installation, including materials and labor, will be in the final quote
Payment schedule:

- 10% upon contract signing (before site visit).
- 80% before material dispatch.
- 10% before system commissioning.

Installation Timeline

Installation starts 2–3 weeks after necessary approvals and initial payment. For government subsidy customers, completion takes about 2–3 months. Delays due to weather, material shortages, or unforeseen events will be communicated promptly.

Warranties

- 25–30 years warranty on solar panels, 8–10 years on inverters.
- 1 Year installation warranty; service charges apply after this period.
- Warranty claims must be in writing, and repairs/replacements will be done within a reasonable time.
- Warranty claims based on Module and inverter make company norms.

Maintenance

- Basic training for routine maintenance is provided.
- Optional maintenance packages for system checks and panel cleaning are available at additional cost.

Performance and Efficiency

The system will produce energy as per the agreed performance ratio. External factors such as weather, site conditions, and grid availability may affect performance.

Liabilities

- The Company is not liable for indirect or consequential damages.
- The Customer is responsible for damages due to external factors such as disasters or unauthorized interference.
- Regular Cleaning and maintenance of panels is under Customer scope.

Government Incentives and Subsidies

- The Company will assist in applying for government incentives (e.g., MNRE subsidy).
- Approval and disbursement of incentives are beyond the Company's control.

Termination

- The Customer may terminate before material dispatch with written notice.
- If terminated during installation, the Customer must cover completed work costs.

Force Majeure

The Company is not responsible for delays due to natural disasters, strikes, or government actions
